

Nuclear Regulatory Commission

§ 110.41

(g) For proposed imports of material listed in Table 1 of Appendix P to this part, a copy of the applicant's authorization to receive and possess the radioactive material to be imported for each recipient.

(h) For proposed exports of material listed in Table 1 of Appendix P to this part, pertinent documentation that the recipient of the material has the necessary authorization under the laws and regulations of the importing country to receive and possess the material. Pertinent documentation shall consist of a copy of the recipient's authorization to receive and possess the material to be exported or a confirmation from the government of the importing country that the recipient is so authorized. The recipient authorization shall include the following information:

- (1) Name of the recipient
- (2) Recipient location and legal address or principal place of business
- (3) Relevant radionuclides and radioactivity being imported or that the recipient is authorized to receive and possess
- (4) Uses, if appropriate
- (5) The expiration date of the recipient's authorization (if any)

Subpart D—Review of License Applications

§ 110.40 Commission review.

(a) Immediately after receipt of a license application for an export or import requiring a specific license under this part, the Commission will initiate its licensing review and, to the maximum extent feasible, will expeditiously process the application concurrently with any applicable review by the Executive Branch.

(b) The Commissioners shall review a license application for export of the following:

- (1) A production or utilization facility.
- (2) More than one effective kilogram of high-enriched uranium, plutonium or U-233.

(3) Nuclear grade graphite for nuclear end use.

(4) 1,000 kilograms or more of deuterium oxide (heavy water), other than exports of heavy water to Canada.

(5) An export involving assistance to end uses related to isotope separation, chemical reprocessing, heavy water production, advanced reactors, or the fabrication of nuclear fuel containing plutonium, except for exports of source material or low-enriched uranium to EURATOM or Japan for enrichment up to 5 percent in the isotope uranium-235, and those categories of exports which the Commission has approved in advance as constituting permitted incidental assistance.

(6) The initial export to a country since March 10, 1978 of source or special nuclear material for nuclear end use.

(7) An export involving over:

- (i) 10 grams of plutonium, U-233 or high-enriched uranium;
- (ii) 1 effective kilogram of low-enriched uranium;
- (iii) Nuclear grade graphite for nuclear end use;
- (iv) 250 kilograms of source material or heavy water; or
- (v) 37 TBq (1,000 curies) of tritium, to any country listed in § 110.28 or § 110.29.

(8) Any export subject to special limitations as determined by the staff or a majority of the Commissioners.

(c) If the Commission has not completed action on a license application within 60 days after receipt of the Executive Branch judgment, as provided for in § 110.41, or the license application when an Executive Branch judgment is not required, it will inform the applicant in writing of the reason for delay and, as appropriate, provide followup reports.
